## **Disclaimer**

### Content liability

Per paragraph 7, section 1, of the German Telemedia Act (TMG) we, as service providers, are responsible for our own content on these pages in accordance with common law. Per paragraphs 8 to 10, however, we, as service providers, are not obligated to monitor transmitted or stored foreign information or search for circumstances that indicate illegal activity.

Obligations pertaining to the removal or blocking from use of information in accordance with the common law are not affected by the above. Liability concerning this matter, however, is only possible at the time of awareness of a concrete breach of the law. In the case that we become aware of such a breach, the respective content will be removed immediately.

## **Liability with respect to links**

Our service includes links to third party websites whose content is beyond our power to control. This is the reason that we cannot assume responsibility for such foreign content. The respective provider or operator of these sites is always responsible for the content of the linked sites. The linked sites were inspected for possible infringements at the time of linking. Illegal content was not apparent at the time of linking. Continuous monitoring of the content of linked sites, however, in the absence of concrete evidence indicating an infringement, does not constitute a reasonable expectation. In the case that we become aware of infringements, the respective links will be removed immediately.

## **Copyright**

The content and works on these sites created by the site operators are subject to German copyright law. Reproduction, editing, distribution and any and all use outside the limits of copyright require written permission by the respective author or creator. Downloads and copies of such sites are only permitted for private use; commercial use is not permitted.

In the case that content on a site was not created by the operator, the copyright of third parties is observed. In particular, third party content will be identified as such. In the case that you will come across a copyright infringement despite these precautions, we respectfully request to be notified. In the case that we become aware of infringements, the respective content will be removed immediately.
